Public Service Pensions Indexation

Public service pensions in payment, together with those that are deferred for payment at a future date, are indexed annually based on the annual change in the Consumer Price Index (CPI) measured as at the previous September.

In the 12 months to September 2023, CPI was 6.7%. As a result, an increase of 6.7% is to be applied from April 2024 for pensions in payment and deferred pensions.

The UK Government expects to lay the Pensions Increase (Review) Order 2024 during March 2024.

CARE Scheme Revaluation

The Police Pension Scheme (Scotland) Regulations 2015 were made under the Public Service Pension Act 2013 (the Act). The 2015 pension scheme is a Career Average Revalued Earnings (CARE) scheme and Section 9 of the Act deals with the annual “in-service” revaluation of CARE scheme benefits, preserving their value in line with rises in the cost of living.

The Police Pension Scheme (Scotland) Regulations 2015 provide for annual revaluation by reference to average weekly earnings. For active members this is at the rate of CPI plus 1.25%; for deferred members at the rate of CPI included in any Pension Increase (Review) Order.

Section 9(2) of the Act requires the change in prices used for revaluation to be such percentage increase or decrease as is specified in an order made by HM Treasury. The Public Service Pensions Revaluation (Prices) Order 2024 will fulfil that requirement in relation to prices and reflects the change in CPI (6.7%) in the 12 months to September 2023. The Chief Secretary to the Treasury has issued a [Written Statement](#) to this effect, with the Public Service Pensions Revaluation Order 2024 coming into force on 8 April 2024.

The in-service revaluation for the 2015 Police Scheme in respect of 2023/24 will be 7.95%.
